

4/20

I like weed....sometimes
I used to like it all the time
but as I got older and wiser
I realized that it's probably not a good idea
to get high when I'm doing my taxes

I never thought it would be legalized
dispensaries are complaining though
it seems their prices are higher than street prices
and it's because of the taxes they have to impose
only the government could screw up such a lucrative business

I listen to Willie Nelson's music
they say he is the patron saint of pot heads
he has certainly earned that title
although it may still take some time before
he takes his seat at the pearly gates
I think he should be canonized....Saint Willie

weed makes me think more galactically (is that even a word?)

photos of Earth from Mars show us as a spec of light
beside all the other specs of light in the sky
that perspective makes my troubles seem small and me insignificant
I don't know if that's good or bad
so I take another toke, think about it and conclude that it is neither
it's more a question of
will the atmosphere on other planets support a grow op
