

A B A B WORKS FOR ME

rock bands washed up on the shores
students stuck in their room
vacant night clubs closing their doors
teachers teaching how to zoom

like finding emeralds in the jungle
and diamonds in the dirt
in the search for love and happiness
someone's always getting hurt

what's more important
colours or sounds
deserted main streets
deserted towns

i need more information
cause i don't have all the facts
too early for a celebration
cause i still can't pay my tax

coming down from a fantasy
waking up from a dream
simply trying to get a grip
can make a poor man scream

praying for a miracle
'cause there's nothing else to do
when people say i'm cynical
i just say it's true
