

GOODBYE YOU ROTTEN BITCH

OK Corona.....you can leave now
you've made your mess
you've burned our forests
and poisoned our waters
but now it is us who are bringing you to your knees

our vaccines are killing you
and for all the misery you have caused
you deserve a punishment that isn't so painless
you deserve something more brutal and cruel

your time is coming to an end
but don't expect one last meal

it is a flaw in our nature to be kind
so we will give you the gift of your last words
our mercy is part of our power over you

goodbye you rotten bitch.....
